

Unit 8 - Week 2 - Handling Real-world Network Datasets

Course outline
How to access the portal?
Course Trailer
Prerequisite

Assignment 2

The due date for submitting this assignment has passed.
As per our records you have not submitted this assignment.

Due on 2019-08-21, 23:59 IST.

- 1) For any vertex v in an undirected (without loop, multiple edges) , the clustering coefficient of v ranges from: **1 point**
